The **KeyENTRA Wiegand Readers** are compact and robust for easy, fuss-free use.

These readers are used with Mifare cards to read up to 7-byte UID with an industry standard Wiegand interface that supports up to 58 bits. The readers are flexible and compatible with any access control system.

Suitable for use both indoors and outdoors, this reader offers IP66 ingress protection. Available in reader only and reader with keypad options, catering to user requirements.
