totallyintegrated**IP**security

The **KeyENTRA Touch Keypad Readers** are compact and robust in a slim and elegant design for use in any environment, both indoors and outdoors.

These readers are used with MIFARE cards to read up to 7-byte UID, with an elegant blue OLED touch keypad and built-in doorbell. This reader family is compatible with industry-standard Wiegand, and supports for up to 58 bits.

In addition to the IP66 rating, the vandal proof reader with a metal cover is a good option for heightened protection when the situation demands it.
